

CONSULTATION

Our leadership assessment services go beyond test reports and data. An experienced EASI•Consult consultant will work with you to inform your leadership team about how to apply the results effectively.

Burke Learning Agility Inventory™ For Leadership Assessment

In today's Volatile, Uncertain, Complex, and Ambiguous (VUCA) world, it is increasingly difficult to identify leaders who possess the skills and ability to move your organization forward. Integrating learning agility and applying years of research and practice, EASI•Consult® provides the processes to identify superior leaders who are able to excel in the 21st century.

How has EASI•Consult leveraged the Burke Learning Agility Inventory in its leadership assessment program?

COMPREHENSIVE LEADERSHIP ASSESSMENT

Finding or developing the right leaders for your organization is always a challenge. No matter how hard you work, it can be difficult to bring enough objectivity to the process. To address this concern, we've incorporated the valuable measures provided by the Burke Learning Agility Inventory into our assessment battery.

Our professionally developed assessment tools are based on success profiling using our unique EASI•Q™ Job Analysis tool and supported by years of research. These carefully chosen tests are a significant advantage in creating a balanced evaluation of a candidate's intellectual base, personality traits and learning agility, which are key to organizational fit and success.

“

The Burke LAI will add to our ability to identify leaders through our comprehensive leadership assessments. ”

– Rebekah Cardenas, Ph.D.
